- Program in Italy: May 22 - June 22

FACULTY LEADER MESSAGE

What better place to study Art History than Italy where students can gain first-hand experience of art and architecture from the Ancient world through Modern times?

We will live in the historic center of Florence, the birthplace of the Renaissance, immersed in its art, culture, and history. We will explore architectural sites and study paintings and sculptures in their original locations. Museum field trips allow close-up examination of original masterpieces by Botticelli, Leonardo, Raphael, Michelangelo, and many others.

In Rome, we will explore ancient ruins, tour the Vatican, and visit Modern and Contemporary art venues. Highlights include the Pantheon, Michelangelo's Sistine Chapel, St. Peter's Basilica, Raphael's frescoes, Baroque illusionistic ceilings, and the intimate Borghese gallery with exquisite works by Bernini and Caravaggio.

By the end of the program, students will have gained a rich understanding and appreciation for the interconnection of art, culture, and history. Studying abroad is a transformative experience and students gain self-confidence and self-reliance in new environments and a new perspective on the world. Most importantly, memorable experiences and close friendships will continue to impact participants' lives. We are passionate about Art History, Italy, and the opportunity for ACC students to study abroad, and we do all we can to make this an enriching and rewarding experience you will never forget. I hope you can join us on this exciting journey!
